Select Interview Conducted by Me
Fill in the appropriate information.
Don’t forget your Annotation
Dr. Donald Smith is the Johnson Science Center's Director of Professional Development. He received his Ph.D. in Geology from Stanford University. He has published papers in geology in a number of journals. Dr. Smith summarized the state of soil erosion and erosion control methods. He provided the perspective of a soil scientist assessing the seriousness of erosion problems in Pennsylvania. This interview was important to my research because local soil erosion was the focus of my paper.
